

Technical characteristics of pre-assembled stands

The pre-assembled stands have common technical characteristics. The elements included in the package are as follows:

- Gray color carpet flooring (reference only indicative RAL 7012);
- White laminate perimeter walls h.250 cm
I Panels can not be drilled/roughed. Only the use of double-sided adhesive tape of cloth type and not spongy is allowed;
- A Furnishings: 80x80cm table and chairs, depending on booth square footage;
- Company name on panel.

A tolerance of 5cm on each adjoining side on the net booth measurements shown on the floor plan is to be considered.
